Re  
Acceptance ICS

Dear Mr. Moody,

Since its inception in 2002, the member of the AIB have issued RECS certificates on behalf of RECS International. The implementation of the EECS Rules on 1<sup>st</sup> September 2011 identifies RECS as an Independent Certification Scheme or "ICS"; and requires that (section D2.4.1) for a type of ICS Certificate to be accepted as an EECS Product, the Scheme Operator of the relevant ICS Scheme must have entered into an agreement with the AIB regarding the operation of that ICS Scheme.

RECS International hereby applies for recognition by the AIB of RECS as an ICS Scheme; and requests that the AIB operate this scheme on behalf of RECS International according to the product rules set out in sections D1.3.3 and N5 of the EECS Rules, as supplemented by individual Domain Protocols.

Referring to section N8.4.1 of the EECS Rules we hereby approve the appointment of Landsnet, for the domain Iceland, and Elering AS, for the domain Estonia, as issuing body to issue RECS certificates.
